# HOW AN AI "SEES": COMPUTER VISION EXPLAINED

A close-up of a robotic eye, with wires and circuits visible, as the narration delves into the basics of how AI 'sees' through cameras and sensors.

# HOW AN AI "SEES": COMPUTER VISION EXPLAINED

A dark and gritty cityscape at dusk, with neon lights reflecting off wet pavement, as a narration box explains the concept of computer vision and its importance in the tech world.

# HOW AN AI "SEES": COMPUTER VISION EXPLAINED

A depiction of a convolutional neural network (CNN) as a complex, neon-lit maze, with data flowing through it, to illustrate the process of image recognition.

# HOW AN AI "SEES": COMPUTER VISION EXPLAINED

A split-panel page comparing human vision to computer vision, highlighting the differences in how each processes visual information.
